Customer shall own all Customer data and upon termination or written request, Locality Media shall provide Customer data to Customer.
3. As between the parties, the Customer and its employees, contractors, members, users, agents, and representatives (collectively, "Customer Users") are solely responsible for determining whether and how to use Data accessed through the Service. The Customer acknowledges that Locality Media, through the Service, provides an interface for viewing Data compiled from the Customer and other sources over which Locality Media has no control and for which Locality Media assumes no responsibility. Locality Media makes no representations or warranties regarding any Location or structure (including but not limited to a Location's safety, construction, occupancy, materials, hazards, water supply, contents, location, surrounding structures, exposures, size, layout, compliance, condition or history), residents, roadways, or any actual or expected outcome from use of the Data, nor does Locality Media make any representation or warranty regarding the accuracy or reliability of the Data received by Locality Media. Locality Media provides administrative and information technology services only and does not advise, recommend, or render an opinion with respect to any information communicated through the Service and shall not be responsible for the Customer's or any third party's use of any information obtained through the Service.

Locality Media shall not be responsible for any problem, error or malfunction relating to the Service resulting from Customer error, data entry errors or malfeasance by the Customer or any third party, or the performance or failure of Equipment or any telecommunications service, cellular or Wi-Fi network, Internet connection, Internet service provider, or any other third-party communications provider, or any other failure or problem not attributable to Locality Media ("Technical Problems").
5. This Agreement will be effective for an initial term of **6 months** (the "Initial Term") commencing on the Effective Date. After the Initial Term, this Agreement will automatically renew for successive terms of **12 months** each (a "Renewal Term"), subject to the right of either party to cancel renewal at any time upon at least 60 days' written notice. Locality Media reserves the right to increase Customer's renewal Service fees by no more than **5%** per annum, applied to the Service fees set forth in the previous term. Either party also may terminate this Agreement immediately upon written notice if the other party: (i) becomes insolvent; (ii) becomes the subject of a petition in bankruptcy which is not withdrawn or dismissed within 60 days thereafter; (iii) makes an assignment for the benefit of creditors; or (iv) materially breaches its obligations under this Agreement and fails to cure such breach within 30 days after the non-breaching party provides written notice thereof.
6. Upon termination, the Customer shall cease use of the Service and all Credentials then in the Customer's possession or control. This Section 6 and Sections 8 through 11 and 15 through 25 hereof shall survive any termination or expiration of this Agreement.

## 1. Introduction

### 1.1 Purpose

The purpose of this Statement of Work (SoW) document is to clearly define the Implementation, Training, Data Migration, Integrations, Customer Success Manager, Customer Support, and Assumptions for **Charleston Rural Fire Protection District** ("Customer") from Locality Media, Inc. dba First Due ("First Due") for the purchased product(s) set forth in Exhibit A – Quote ("Purchased Products") attached to the Agreement.

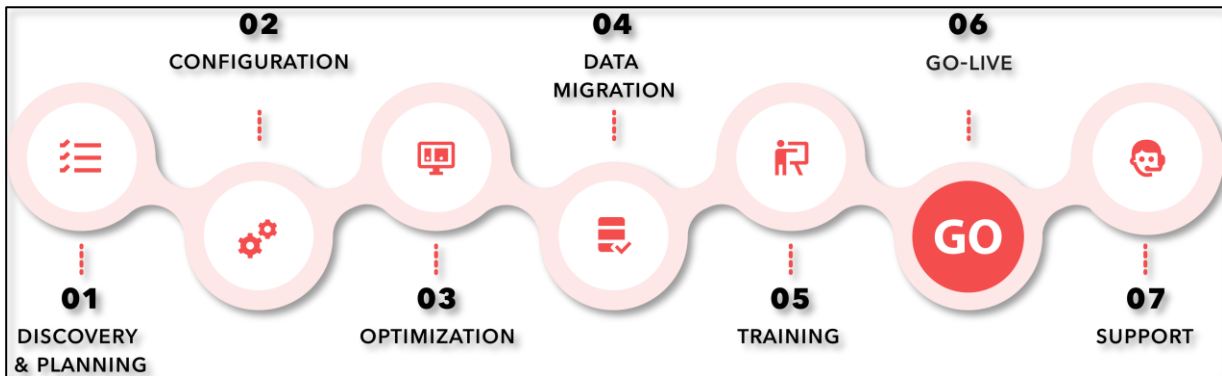

### 1.2 Scope:

This SOW includes the configuration, optimization, and deployment of the Purchased Products with the goal of meeting the organizational needs of the Customer.

## 2. Implementation

### 2.1 Overview

First Due utilizes a combination waterfall and iterative approach to implementation. This includes Discovery, Configuration, Optimization, Data Migration, Training, and Go-Live.

### 2.2 Implementation Resources

- Implementation Manager:** Project lead and go-to person, acting as the primary liaison between the Customer and the First Due project team. The Implementation Manager will develop and execute the project plan, manage communication, and ensure adherence to predefined timelines and quality standards. This individual is also responsible for helping to configure the core system and some of the more straightforward modules.
- Implementation Product Specialist(s):** While the Implementation Manager will lead the overall project, Product Specialists will be brought in to help configure and optimize specialty modules such as Fire Prevention, ePCR, Assets & Inventory, Training, Scheduling, and Reporting. They are product experts in First Due and are versed in industry best practices for their specific product specialties. Depending on the modules purchased and complexity, your project may be assigned 1-3 Product Specialists.
- Technical Implementation Specialist:** Responsible for managing data migration from your current vendor to First Due and the integration between First Due and CAD. The Technical Implementation Specialist

team comes from a diverse background, ranging from database management to public safety software integration.

- **Customer Success Manager:** As the point person after project completion, the Customer Success Manager (CSM) will be part of the implementation as an advocate and to ensure a seamless transition to support post go-live. During the Implementation they will regularly check-in to ensure progress is being made and help with the addition of new modules or scope from a commercial perspective. Post go-live, they will provide regular check-ins to ensure the Customer is adopting the Purchased Products and deriving value from them.
- **Training Manager:** Responsible for developing and executing the training plan, with the goal of effective adoption of the Purchased Products by Customer. The Training Manager will be involved throughout the project to ensure they have the Customer specific knowledge to design the most effective training plan possible.

## 2.3 Implementation Phases

Once filled out, the Implementation Manager will schedule a Project Kick-Off. During this meeting the Customer will receive access to the First Due platform, meet the project team and receive an initial product tour. The Implementation Manager will also provide an overview of the project plan, decide the meeting cadence, and formalize the next steps. CAD Integration and Data Migration planning meetings are also held during this phase, if required. These meetings will be led by the Technical Implementation Specialist.

# 8. Assumptions

## 8.1 Customer Participation

Every successful implementation requires adequate participation from the Customer. Although First Due is ultimately responsible for deliverables in the SoW, Customer agrees to attend the necessary calls and complete required preparatory work in order to help drive the project forward. At a minimum, Customer resources will be required for one (1) hour per week for meetings, and half an hour to one (0.5-1) hour of prep work per week by one or multiple individuals. Customer understands the importance of ensuring the correct Customer resources are available when required.

## 8.2 Statement of Work Expiration

Excluding significant delays caused by the First Due team, this Statement of Work will expire within twelve (12) months of the Subscription Start Date as detailed in Exhibit A – Quote. In situations where the project is delayed for no fault of either party, First Due agrees to extend the term, only if there is an agreed plan to complete the project within the extension period. Note the term expiration does not apply to section 6 & 7 above and will not impact First Due's ability to support the Customer post go-live.

## 8.3 Best Practice and Standard Workflow

First Due intends to meet the organizational needs of the Customer and their respective software requirements by configuring the Purchased Products to closely align with existing workflows. Although First Due is incredibly flexible, there may be times when First Due recommends using standard functionality or best practice to ensure a timely implementation, and simplification of current process. These workflows may differ from Customer existing workflows. Customer understands the importance of collaboration to achieve the ultimate goal of successfully adopting the Purchased Products and is aware there may be changes to existing workflow to accomplish this.

## 8.4 Go-live Requirements & Gaps

Over the course of the Implementation, both parties may uncover functionality gaps in the Purchased Products. Some of these gaps may have a material impact on the ability to implement or adopt the product. Gaps of this nature, deemed Go-Live Requirements, will be prioritized to ensure a timely go-live and project completion. However, in the case that certain features are not complete before go-live, they will be added to module and system signoffs as exceptions and will be completed within an agreed upon timeframe.
